

Stormgarde – Fear

*Sad eyes looking to the horizon
Sad eyes telling a story
A story everybody claims to know
But nobody understands*

*A funny smile which isn't true
A touch which is very cold
Steps slow and heavy
Are walking towards a dark hole*

*Afraid of tears
Afraid of pain
Afraid of bareness
Afraid of treachery*

*The world is evil
The world is dark
Captured in a prison of faith
And no way out without hate*

*A book telling the way of life
Representing the world
Representing death
A prison you can't get out*

*Once common and warm
Promising eternal life
Now it is like hell
Satan isn't far away*

Afraid of ...

The world is ...

*A jolt brings him to his senses
The beauty of the world
The lucky way of life
The freedom in his heart*

*Trying to forget
The time of fear
And captivity
The mind is free*

Trying to ...

The world is ...
